

Ph 129 Mid-term
Due Day: Tuesday, Nov. 9th, 5pm.

This exam must be taken in one sitting over the period of 4 hours from start to end. Please note on the top of your solution the starting and finishing time.

The exam contains four problems. To obtain a perfect score you need to answer only three out of the four problems. If you tackle more than three problems, indicate on the top of your exam which problems you would like graded.

you may use any personal notes, course hand-outs, and *one* book of your choice during the exam. Note the textbook you are using in your solution.

If you need to make any assumptions due to lack of information in the text, specify clearly your assumptions.

Your solution is due in Gil's mailbox by Tuesday, Nov. 9th, 5pm.

Do not discuss the exam with your colleagues before they (or you!) handed in their solution.
